Art Unit: 2816

1. The amendment filed on 3/7/05 has been received and entered in the case.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1 and 5-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Pilo.

See paragraph four of the previous office action for the details of this rejection.

4. Applicant's arguments filed on 3/7/05 have been fully considered but they are not persuasive.

The argument that nodes 101 and 102 are not reference nodes is not persuasive because they are performing the same function/operation as applicant's "reference" nodes, i.e., if applicant's node 1021 is a reference node, then so too is node 101 (or 102) of Pilo.

The argument that the sampling circuit of Pilo is not activated a predetermined interval before measurement of the input signal is to be taken is also not persuasive because such is clearly seen in Fig. 2 of the reference. Also note that signal MUXLAT\* is by necessity provided to node 102 prior to the

Art Unit: 2816

sense comparison, i.e., signal MUXLAT\* must pass through the transmission gate 43 before the sense (comparison) operation can occur.

The final argument, that signal OE is not an enable signal, is simply incorrect, i.e., it determines whether or not the sense amplifier formed by BJTs 26, 27 can pass current.

5. Also note the seven other references cited on the PTO-892 mailed with the previous office action on 12/01/04, each of which is seen to anticipate at least independent claims 1 and 5 as well.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2816

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
